

## Pharmig's current series of Zoom Webinars for 2024

FEES FOR EACH WEBINAR - £80pp Pharmig Members / £110pp Non-Members

### Rapid microbiological methods: Great but....

Webinar Tuesday 30<sup>th</sup> April 2pm – 3pm (BST)

Led by - **Dr Tim Sandle – Head of GxP Compliance & Quality Risk Management**

Rapid microbiology methods are undoubtedly helping to drive monitoring forwards, but they are not a 'universal' solution and a flawed strategy for their implementation will result in the intended value not being delivered. This webinar looks at the implementation strategy, how rapid methods tie in with EU GMP Annex 1, and presents a case study around a sound implementation process.

The webinar covers:

- Limitations of conventional monitoring
- The advantages of rapid methods
- The flaws around rapid methods
- Monitoring and its role in the CCS
- What is really wanted from a rapid method?
- Current guidance
- How we can connect rapid methods to quality risk management.

The webinar includes a case study based on effective implementation: Biofluorescent airborne counters and cleanroom contamination control

**FEES FOR EACH WEBINAR - £80pp Pharmig Members / £110pp Non-Members**
